I think that is a good plan Clare, thank you. Please let me know what/where Glenn suggests and/or if I can help in some way. Within OIS, it's Ben Ficks' division, IRSD; specifically Houman Rasouli is the Information Management Branch Chief responsible for Web "stuff." OIS staff may have some good ideas as well.

Karen and Cherrie,

The OMB Memorandum provides direction on Conference spending that requires agency's to report on conferences expenses in excess of \$100,000 on a dedicated place on it official website. Also, for conferences in excess of \$500,000 (such as RIC) the Web site must include the head of the agency's waiver that the single conference in excess of \$500K is the most cost effective option to achieve a compelling purpose. I was planning on mentioning this requirement to Glenn Ellmers and ask him his thoughts on where we might post this information. Then, I was planning advising Darren what Glenn suggested, and find out the appropriate individuals in OIS to coordinate the next steps (possibly green ticket). I'm willing to handle, as outlined above. But, if either of you want to address this requirement in another way or have a suggestion on how to proceed, that would be fantastic.

Thanks Cherrie – I didn't even notice it. By the way, I'm going to ask Joel to include you on any future correspondence.

Clare – Is there something you need me to do? I was not at the meeting and am not clear based on Joel's notes. Please advise; thanks!

Thanks. I see that OEDO was tasked to take the lead to work with OIS to get reporting mechanism added to web-site, I had an activity at the kids' school, so I called into the meeting from my cell phone/in my car and couldn't hear very well. I don't recall a discussion about the website and don't know who/if anyone has the lead for the action☺. Clare was at the meeting, so she may be able to shed some light on the topic.

Subject: Meeting Takeaways on OMB Memo M12-12

All,

Attached below are the takeaways from our meeting, arranged by office. If there is a takeaway that I have missed please let me know and I will add it for tracking purposes.

After our meeting OCFO had a conference call with OMB to discuss this memo and some of the requirements it contains. When the NRC reports the conference activity for FY 2012 in January of 2013, information should be provided for all conferences that were held during the fiscal year. However, the specific reporting requirements and waivers will only need to be attached for the conferences that occurred after the memo was released. Though not specified in the memo, Christine McDonald stated that waivers and reports on conferences should highlight any actions that were taken to hold down costs of the approved conferences. For the travel requirements portion of

the memo Christine was supportive of the NRC pursuing exemptions for mission travel and reiterated that the memo was not intended to be a one-size-fits-all exercise.

Thanks,

Joel
