SUBJECT: Entergy Agreements with State and Local Governments
Indian Point Unit Numbers 2 and 3
Docket Nos. 50-247 and 50-286
License Nos. DPR-26 and DPR-64

REFERENCE: 1. NRC letter to Entergy, Request for Information Pursuant to Title 10 of the Code of Federal Regulations 50.54(f) Regarding Recommendations 2.1, 2.3, and 9.3 of the Near-Term Task Force Review of Insights from the Fukushima Dai-Ichi Accident, dated March 12, 2012

2. Entergy Letter NL-12-075 Regarding Entergy's 90-Day Response to the March 12, 2012, Information Request, Action Plan for Completing Emergency Communication and Staffing Assessments, dated June 8, 2012

Dear Sir or Madam:

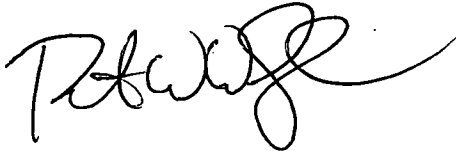

On March 12, 2012, the Nuclear Regulatory Commission ("NRC" or "Commission") issued a request for information to Entergy Nuclear Operations, Inc. (Entergy). Entergy provided a 90 day response, Reference 2, which committed to advise the NRC of the ability to reach agreements with State and local governments to provide logistical support for the transport of emergency responders to the site in the event of a large scale natural disaster that inhibits site access. This letter is to complete that commitment.

The ability to obtain logistical support for transporting emergency responders was discussed and the State and Local governments verbally agreed that support would be provided as available and based on the competing priorities at the time. Agreements are not feasible since the scope of the large scale disaster and remaining equipment available are unknown.

AXYS
NRR

This letter contains no new regulatory commitments. If you have any questions regarding this letter, please contact Mr. Robert Walpole, Manager, Licensing.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Walpole", written in a cursive style.
