Route 3, Box 659

SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENTAL  
ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF  
SOUTH TEXAS PROJECT UNITS 1 AND 2 FOR PUBLIC COMMENT

Dear Principal Chief Sylestine:

The U.S. Nuclear Regulatory Commission (NRC) staff is conducting an environmental review of the effects of renewing the operating license for South Texas Project, Units 1 and 2 (STP). STP is located in Matagorda County, Texas, and is operated by STP Nuclear Operating Company (STPNOC). As part of its review, the NRC has completed a draft Supplemental Environmental Impact Statement (SEIS) for license renewal of STP. This letter is to inform you and members of your tribe that the draft SEIS for the license renewal of STP is available for public comment.

The NRC staff is distributing the draft SEIS to your tribe for comment, as well as to the Kiowa Tribe of Oklahoma, the Comanche Nation of Oklahoma, the Tonkawa Tribe of Oklahoma, the Apalachicola Band of Creek Indians, the Lipan Apache Tribe of Texas, the Pamaque Clan of Coahuila Y Tejas, the Tap Pilam-Coahuiltecan Nation, and the Kickapoo Traditional Council of Texas, Ysleta del Sur Pueblo. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation and refurbishment activities associated with license renewal.

As stated in our letter to your tribe dated February 9, 2011, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC also determined that historic properties would not be adversely affected by this undertaking (the renewal of the STP operating license). The justification for this conclusion is explained in Section 4.9.6 of the draft SEIS.

As discussed in Section 9.4 of the draft SEIS, the NRC's preliminary recommendation is that the adverse environmental impacts of license renewal for STP are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in the GEIS; (2) the environmental report submitted by STPNOC; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft supplement and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing [www.regulations.gov](http://www.regulations.gov) and Docket ID NRC-2010-0375. Please note that the public comment period for the draft SEIS ends on February 22, 2013.

Public meetings to discuss the findings of the draft SEIS will be held on January 15, 2013, at the Bay City Civic Center, 201 Seventh Street, Bay City, Texas, 77414. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the *Federal Register* through the U.S. Environmental Protection Agency.

If you have any questions regarding this matter, please contact Emily Larson, Social Scientist, at 301-415-1151 or by e-mail at [Emily.Larson@nrc.gov](mailto:Emily.Larson@nrc.gov).

The NRC staff is distributing the draft SEIS to your tribe for comment, as well as to the Alabama-Coushatta Tribe, the Kiowa Tribe of Oklahoma, the Comanche Nation of Oklahoma, the Tonkawa Tribe of Oklahoma, the Apalachicola Band of Creek Indians, the Lipan Apache Tribe of Texas, the Pamaque Clan of Coahuila Y Tejas, and the Kickapoo Traditional Council of Texas, Ysleta del Sur Pueblo. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation and refurbishment activities associated with license renewal.

As stated in our letter to your tribe dated February 17, 2011, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC also determined that historic properties would not be adversely affected by this undertaking (the renewal of the STP operating license). The justification for this conclusion is explained in Section 4.9.6 of the draft SEIS.

As discussed in Section 9.4 of the draft SEIS, the NRC's preliminary recommendation is that the adverse environmental impacts of license renewal for STP are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in the GEIS; (2) the environmental report submitted by STPNOC; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft supplement and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing [www.regulations.gov](http://www.regulations.gov) and Docket ID NRC-2010-0375. Please note that the public comment period for the draft SEIS ends on February 22, 2013.

Public meetings to discuss the findings of the draft SEIS will be held on January 15, 2013, at the Bay City Civic Center, 201 Seventh Street, Bay City, Texas, 77414. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the *Federal Register* through the U.S. Environmental Protection Agency.
