Thanks Roger.

Please advise if there is any further change in status.

Note of course, that delays like this in your responses can have an impact on the staff's ability to complete the SSER on its original schedule.

John,

As discussed last Thursday there is a slight delay relative to the 30 day response time of your letter of October 16. We received final vendor input last Thursday that was behind schedule. That has impacted our response schedule. We are working to get the response to you as soon as we can commensurate with our review process. That should mean we would submit the response to you by this Wednesday at the latest.
