Subject: scoping hearings and comment period

Dear Chairperson Macfarlane,

I am glad that you have announced a first scoping hearing, that will be available online, as well as 2 Web seminars. This is a good first step in hearing from the public and making your information available to residents. However, to have a comment deadline of Jan. 2, 2013, less than 30 days after those 2 seminars, seems inappropriate haste to me. As you have a reputation of impartiality and careful investigation, you must appreciate that those living around nuclear plants have special environmental concerns related to their specific geographic areas, and therefore I assume that you would understand the value of holding hearings in the immediate areas of these facilities.

Please extend the comment period and schedule hearings across the country so that the local voice may all be heard, as I understand to have been the intention of the ruling in response to which the NRC has scheduled teh 3 events that I mentioned above.

Thank you for your consideration; I look forward to your response.

Cordially yours,

Sally Jane Gellert
