**Docket:** NRC-2012-0246

Consideration on Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

**Comment On:** NRC-2012-0246-0001

Consideration of Environmental Impacts of Temporary Storage of Spent Fuel After Cessation of Reactor Operation

**Document:** NRC-2012-0246-DRAFT-0053

Comment on FR Doc # 2012-26295

10/25/2012 (55)  
77 FR 65137

## Submitter Information

**Name:** Susanne Farrington

**Address:**

2798 Johnny Cake Hill Rd.  
Hamilton, 13346

**Organization:** Sierra Club, River Keeper, Water Keeper

## General Comment

Nuclear Waste is not going away, and the so-called temporary storage sites at nuclear power plants need to be studied for their environmental impacts. Indefinite storage of these wastes hasn't been 100% successful. Public safety and the well-being of future generations requires closing nuclear power plants unless radioactive wastes can be rendered safe or successfully contained 100% of the time.
