Nuclear Pharmacy Services
7000 Cardinal Place
Dublin, Ohio 43017

Dear Dr. Regits:

It has come to our attention that NRC license number 34-32840-01 contained an error in license condition number 10. In accordance with an October 25, 2012, e-mail from Mr. Dan Hill of your organization, we neglected to change the address of the facility identified in condition 10.

During our process of reviewing your application for the new license, Mr. Hill communicated to us in a December 7, 2011, e-mail that there was a change in the initial address that was described on page 9-1 of your application. We failed to recognize the change at the time we issued the license. License condition 10 has been corrected to reflect the change in the address. In addition, as discussed with Mr. Hill on October 26, we did not include the specific room number in the address listed under condition 10.

Enclosed is a corrected copy of your NRC license reflecting the change. We apologize for any inconvenience this may have caused you.

The NRC published its policy statement on safety culture in the *Federal Register* (76 FR 34773; June 14, 2011). This policy statement sets forth agency expectations that individuals and organizations involved in NRC-regulated activities establish and maintain a positive safety culture commensurate with the safety and security significance of their activities and the nature and complexity of their organizations. The NRC has also developed a brochure (NUREG/BR-0500, "Safety Culture Policy Statement," issued June 2011) and a Regulatory Issue Summary 2012-01 dated January 17, 2012 (ML112940226) that are intended to aid stakeholders in understanding the safety culture traits. The policy statement, including relevant background documents, *Federal Register* notices, meeting notices, and presentations made at public meetings, can be accessed on the NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. The Web site also includes the safety culture brochure and tools (e.g., case studies) that support the policy statement.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin G. Null". The signature is fluid and cursive, with a large initial "K" and a distinct "G" and "N".

Kevin G. Null
