Dear Mr. Lewis:

The Nuclear Energy Institute (NEI)<sup>1</sup> and an industry task force have developed, and are seeking NRC endorsement of, NEI 99-01, *Development of Emergency Action Levels for Non-Passive Reactors*, Revision 6, dated November 2012. To facilitate your review, a copy of this document is attached (Attachment 1). This version supersedes the draft previously provided for staff review and dated September, 2012 (ADAMS #ML 12257A348); we understand and agree that no further review work will be performed on this earlier submittal.

The attached document was developed following a review of the staff's comments provided in the NRC letter, "U.S. Nuclear Regulatory Commission Review of the Proposed Revision 6 to the Nuclear Energy Institute (NEI) NEI 99-01, 'Development of Emergency Action Levels for Non-Passive Reactors,' Dated September, 2012," dated November 2, 2012.
