RE: Requested Amendment Number 6 to Materials License No. 49-27067-01

To Whom It May Concern:

Worthington, Lenhart & Carpenter, Inc. (WLC) would like to request an amendment of License 49-27067-01. The following is information regarding Worthington, Lenhart and Carpenter, Inc.'s (WLC) request. I have filled out and attached the Information Required for Change of Control and/or Ownership. WLC is requesting that this amendment supersede previous amendments. In short, WLC has closed its satellite office located in Gillette, Wyoming and the gauge has initially been moved to the Casper office and, although Control of Licensed activities has not changed, there have been some minor stock ownership transitions within WLC.

This is being provided as part of Information Required for Change of Control and/or Change of Ownership. Item 1 and item 2.

The Organization (Worthington, Lenhart & Carpenter, Inc.) owns the license. Control has not changed. Gregory L. Biggs is still RSO and a majority owner. Majority Ownership has not changed; owners of the organization have changed. Shawn J. Gustafson is no longer an Owner. Shane Porter, Brian Gray, Steve Castle, Kenneth Moore, and Brad Miskimins are still owners with a minority share.

ITEM 3: ADRESSES

The Storage location's of WLC's portable nuclear density gauges is listed in box 3 of NRC Form 313. These are the operational facilities of our Engineering and Surveying business and will be the storage facilities excluding the Gillette facility. Gauges will be used for the purposes described in their respective SSD Registration Sheets for moisture and density testing for construction projects at temporary job sites throughout Wyoming.

Item 4 – Surveillance Program

The following surveillance program is currently being followed and will continue to be followed after the transference.

A. Survey Instruments

We will possess a radiation survey meter, for each location, that meets the criteria in the section entitled, "Radiation Safety Program-Instruments", in NUREG-1556, Vol. 1, Rev. 2, dated May 2012, in the event of an incident.

Material Receipt and Accountability

Physical inventory will be conducted at intervals not to exceed 6 months, to account for all sealed sources and devices received and possessed under the license.

Occupational Dosimetry

WLC personnel utilizing nuclear moisture-density gauges will be provided with film badges. The film badges will be collected by the R.S.O. quarterly and sent to the current badge provider, Landauer, Inc., 2 Science Road, Glenwood, Illinois 60425. A copy of a Landauer report "Radiation Dosimetry Report" is attached for your reference.

Either we will maintain, for inspection by NRC, documentation demonstrating that unmonitored individuals are not likely to receive a radiation dose in excess of 10 percent of the allowable limits in 10 CFR Part 20, or we will provide dosimetry processed and evaluated by an NVLAP approved processor that is exchanged at a frequency recommended by the processor.

to account for all sealed sources and devices received and possessed under

Operating and Emergency Procedures

We will implement and maintain the operating and emergency procedures in appendix H of NUREG-1556, Vol. 1, Rev. 2, dated May 2012, and provide copies of these procedures to all gauge users and at each job site.

Leak Tests

Leak tests will be performed at intervals approved by NRC and specified in the Sealed Source and Device Registration Sheet. Leak tests will be performed by an organization authorized by the NRC to provide leak testing services for other licensees or using a leak test kit supplied by an organization authorized by the NRC to provide leak test kits to other licensees and according to the kit supplier's instructions.

Maintenance

Routine cleaning and lubrication: We will implement and maintain procedures for routine maintenance of our gauges according to the manufacture's recommendations and instructions.

Non-routine maintenance: We will send the gauges to the manufacturer or other person authorized by the NRC to perform non-routine maintenance or repair operations that require the removal of the source or source rod from the gauge.

- B. The surveillance Items # Records: calibrations, leak tests, surveys, inventories, and accountability requirements will be current at the time of transfer.

Item 5 – Confirmation of Records Transfer

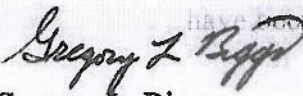

All records concerning the safety and effective decommissioning (closing) of the Worthington, Lenhart and Carpenter Gillette, Wyoming location have been transferred to, Worthington, Lenhart and Carpenter Casper, Wyoming 82601, as appropriate.

Item 6 – Confirmation of Abiding By All Constraints, Conditions and Requirements

Worthington, Lenhart and Carpenter Inc. will continue to commit to abide by all constraints, conditions, requirements and commitments that we have been or may become subject to.

Thank you for considering this request. If you have any questions please contact me at 307-266-2524.

Dear Ms Murnahan:

Upon review of our records WLC realized this request had not been sent to the NRC. This is in an effort to notify the NRC that Worthington, Lenhart & Carpenter, Inc's Vice President quit and that WLC has closed our Gillette office. I believe you have previously spoken with Rose Velasquez about this issue in late August.

Thank you for your consideration, if you have any questions please let me know. I can be reached at 307-266-2524.
