December 5, 2012

LICENSEE: ENERGY NUCLEAR OPERATIONS, INC.

FACILITY: PALISADES NUCLEAR PLANT

SUBJECT: SUMMARY OF NOVEMBER 13, 2012, PRE-APPLICATION MEETING WITH ENERGY NUCLEAR OPERATIONS, INC., TO DISCUSS A FORTHCOMING PALISADES NFPA-805 SUBMITTAL (TAC NO. ME9852)

On November 13, 2012, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Entergy Nuclear Operations, Inc. (ENO), at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. The purpose of the meeting was to discuss a forthcoming National Fire Protection Association (NFPA) 805 submittal at Palisades Nuclear Plant (PNP). A list of attendees is provided as an enclosure.

Prior to the meeting, the licensee had submitted the slides for their presentation entitled "NFPA 805 License Amendment Request Pre-submittal meeting" dated November 13, 2012 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML12314A371). During the meeting, the licensee's presentation provided an overview of the NFPA 805 project at Palisades. The licensee discussed with the NRC staff the overview of the Palisades plant, the current Fire Protection Licensing Basis, NFPA 805 Transition Project Overview, compliance with NFPA 805, and the proposed timeline for the project.

The licensee plans to submit the license amendment request by December 31, 2012. The NRC staff provided the licensee with the necessary information required for the acceptance review and the necessity of minimizing the need for requesting additional information. The licensee adequately responded to the staff's questions and provided the necessary information and clarifications. There was also general consensus to conduct additional meetings or teleconferences as needed. There were members of the public who joined the meeting via teleconference. However, no Public Meeting Feedback forms were requested. Please direct any inquiries to me at 301-415-8371, or Mahesh.chawla@nrc.gov.
