

December 4, 2012

Christopher Brennan
Senior Staff Engineer
Exelon Nuclear
200 Exelon Way
Kennett Square, PA 19348

Dear Mr. Brennan:

It is my sincere pleasure to invite you to speak at NRC's 25th Annual U.S. Nuclear Regulatory Information Conference (RIC). The Conference will be held on March 12-14, 2013, at the Bethesda North Marriott Hotel and Conference Center, 5701 Marinelli Road, North Bethesda, MD 20852.

The 3-day annual conference is co-sponsored by the Office of Nuclear Reactor Regulation and the Office of Nuclear Regulatory Research, and brings together more than 3,000 participants from over 30 countries representing interested parties from government, industry, international agencies, other interested stakeholders and members of the public. The RIC provides an open forum for stakeholders to learn, share, and discuss information on significant and timely nuclear regulatory activities, processes, and emergent issues.

We request your participation as a panelist on a technical session entitled, *Status and Path Forward on the Management of Gas Accumulation in Nuclear Power Plant Systems*, chaired by NRC's Chris Jackson, NRR. The session is scheduled for Tuesday March 12, 2013 from 3:30 PM to 5:00 PM. The session will give participants an opportunity to learn the status of various actions by both NRC and industry related to gas accumulation and management and to create awareness of the technical issues and possible solutions associated with gas accumulation and management. Your presentation and the presentations of other panel members will help engage dialogue and stimulate questions and comments from session participants.

Jennifer Gall, NRR will be the Coordinator for this session, and can be reached at (301) 415-3253 and Jennifer.Gall@nrc.gov.

Upon acceptance, please complete and return the enclosed Speaker Information and Confirmation, biographical information and signed External Speaker Agreement to Jennifer Gall by **December 17, 2012**, to ensure inclusion in the final printed program.

C. Brennan

- 2 -

Also enclosed is a tentative program overview, for your information. I look forward to your participation this year.

Sincerely,

/RA/

Christopher Jackson
Chief, Reactor Systems Branch
Division of Safety Systems
Office of Nuclear Reactor Regulation
