Data Coverage

The Natural Heritage Program currently tracks over 1100 rare and endangered plant and animal species as well as hundreds of conservation sites across the state. This information is collected through ongoing research and field investigations by the Division and other scientists from across the State, as well as from scientific literature, museum collections, and other sources and is continually analyzed and updated. Natural Heritage data is not only important in identifying areas of ecological significance for conservation and restoration activities, but is also a valuable tool in the environmental review process.

Data Requests and Environmental Review

The Division of Natural Areas maintains the state's most comprehensive and up to date repository of data regarding the status and distribution of state and federal concern plant and animal species, ecologically important sites, and conservation managed lands. These data can be used in the planning process or as a general screening tool for identifying potential impacts to natural heritage resources, however they cannot be substituted for on-site biological surveys. At this time, the DNA offers the following information services:

County, Quadrangle, and Watershed Listings.....no charge

The majority of lands in Tennessee have had no rare species surveys, and the lack of point-specific data can be misleading. Therefore, the DNA suggests reviewing and downloading <u>generalized data</u> through an interactive, searchable database in order to determine what rare species may reside within your project area.

Site Specific Coverage/Project Review\$100/project; add \$30 for each additional USGS Quadrangle Covered

For environmental review planning, the DNA encourages using the generalized data link above. However, if you still wish site-specific data of known state and federal concern plant and animal species, ecologically significant sites, and certain conservation managed lands, we can perform such reviews for \$100 per project. DNA staff will prepare and send to the requesting entity a list and/or map of rare species documented within a one-mile radius of the project area, as well as a list of species documented from the surrounding area.

Larger projects and linear projects that cover an area greater than a 4-mile radius shall be charged \$30 for each additional USGS 1:24,000 quadrangle included in the project area. Please complete the Project Review From and submit, along with a site map, to the Natural Heritage Data Manager. Data requests are usually filled within 10 working days and e-mailed or mailed to the receiving entity after payment is received.

Please contact the Natural Heritage Data Manager at (615) 532-0440 for more information.

<u>Project Review Form for Email</u> - Microsoft Word Version <u>Project Review Form for U.S. Mail</u> - Adobe PDF Version

Please contact the Natural Heritage Data Manager at (615) 532-0440 for more information.

(2) Key to Status and Ranks

1 - 37	ot	37
--------	----	----

County	<u>Type</u>	Scientific Name	Common Name	Global Rank	Fed. Status	St. Status	<u>Habitat</u>	State Rank
Rhea	Vertebrate Animal	Haliaeetus leucocephalus	Bald Eagle	G5		D	Areas close to large bodies of water; roosts in sheltered sites in winter; communal roost sites common.	S3
Rhea	Vertebrate Animal	Aimophila aestivalis	Bachman's Sparrow	G3		E	Dry open pine or oak woods; nests on the ground in dense cover.	S1B
Rhea	Vertebrate Animal	Hemitremia flammea	Flame Chub	G3		D	Springs and spring-fed streams with lush aquatic vegetation; Tennessee & middle Cumberland river watersheds.	S3
Rhea	Vertebrate Animal	Phoxinus tennesseensis	Tennessee Dace	G3		D	First order spring-fed streams of woodlands in Ridge and Valley limestone region; Tennessee River watershed.	S3
Rhea	Vertebrate Animal	Phoxinus saylori	Laurel Dace	G1	LE	E	Cool 1st-2nd order streams with slabrock and rubble substrate; Walden Ridge of the Cumberland Plateau; Tennessee River watershed.	S1
Rhea	Vertebrate Animal	Percina aurantiaca	Tangerine Darter	G4		D	Large-moderate size headwater tribs to Tennessee River, in clear, fairly deep, rocky pools, usually below riffles.	S3
Rhea	Vertebrate Animal	Myotis grisescens	Gray Myotis	G3	LE	E	Cave obligate year-round; frequents forested areas; migratory.	S2
Rhea	Vertebrate Animal	Myotis leibii	Eastern Small- footed Myotis	G3		D	Hibernates in caves & mines; also uses abandoned buildings, bridges, and barns seasonally.	S2S3
Rhea	Vertebrate Animal	Neotoma magister	Allegheny Woodrat	G3G4		D	Outcrops, cliffs, talus slopes, crevices, sinkholes, caves & karst.	S3
Rhea	Vertebrate Animal	Synaptomys cooperi	Southern Bog Lemming	G5		D	Marshy meadows, wet balds, & rich upland forests.	S4
Rhea	Vertebrate Animal	Zapus hudsonius	Meadow Jumping Mouse	G5	No Status	D	Open grassy fields; often abundant in thick vegetation near water bodies; statewide.	S4
Rhea	Vertebrate Animal	Spilogale putorius	Eastern Spotted Skunk	G5		Rare, Not State Listed	Rocky outcrops, open prairies, brushy areas, cultivated fields, and barnyards; more common in east Tennessee; reclusive.	S3
Rhea	Vertebrate Animal	Pituophis melanoleucus melanoleucus	Northern Pinesnake	G4T4		Т	Well-drained sandy soils in pine/pine-oak woods; dry mountain ridges; E portions of west TN, E to lower elev of the Appalachians.	S 3
Rhea	Invertebrate Animal	Pseudanophthalmus nortoni	Norton's Cave Beetle	G1		Rare, Not State Listed	Terrestrial cave obligate; Ridge & Valley.	S1
Rhea	Invertebrate	Nesticus dilutus	Grassy Creek	G1		Rare, Not	Terrestrial cave obligate; Rhea County.	S1

	Animal		Cave Spider			State Listed		
Rhea	Invertebrate Animal	Cyprogenia stegaria	Fanshell	G1Q	LE	Е	Medium to large streams and rivers with coarse sand and gravel substrates; Cumberland and Tennessee river systems.	S1
Rhea	Invertebrate Animal	<u>Dromus dromas</u>	Dromedary Pearlymussel	G1	LE	Е	Medium-large rivers with riffles and shoals w/ relatively firm rubble, gravel, and stable substrates; Tennessee & Cumberland systems.	S1
Rhea	Invertebrate Animal	Lampsilis abrupta	Pink Mucket	G2	LE	E	Generally a large river species, preferring sand-gravel or rocky substrates with mod-strong currents; Tennessee & Cumberland river systems.	S2
Rhea	Invertebrate Animal	Plethobasus cooperianus	Orangefoot Pimpleback	G1	LE	Е	Large rivers in sand-gravel-cobble substrates in riffles and shoals in deep flowing water; Cumberland & Tennessee river systems.	S1
Rhea	Invertebrate Animal	Pleurobema oviforme	Tennessee Clubshell	G2G3		Rare, Not State Listed	Small, shallow streams & rivers with good current & coarse gravel/sand substrates; Tennessee & Cumberland river systems.	S2S3
Rhea	Invertebrate Animal	Pleurobema plenum	Rough Pigtoe	G1	LE	Е	Medium to large rivers in sand, gravel, and cobble substrates of shoals; Tennessee & Cumberland river systems.	S1
Rhea	Invertebrate Animal	Pleurobema rubrum	Pyramid Pigtoe	G2G3		Rare, Not State Listed	Rivers with strong current and firm sand/gravel substrates; TN & Cumb river systems incl KY Reservoir; W Uplands & W Highland Rim.	S1S2
Rhea	Vascular Plant	Liatris cylindracea	Slender Blazing- star	G5		Т	Barrens	S2
Rhea	Vascular Plant	Solidago ptarmicoides	Prairie Goldenrod	G5		Е	Barrens	S1S2
Rhea	Vascular Plant	Diamorpha smallii	Small's Stonecrop	G4		Е	Sandstone Outcrops	S1S2
Rhea	Vascular Plant	Lathyrus palustris	Marsh Pea	G5		S	Wet Woods & Marshes	S1
Rhea	Vascular Plant	Ribes curvatum	Granite Gooseberry	G4		Т	Rocky Woods	S1
Rhea	Vascular Plant	Gelsemium sempervirens	Yellow Jessamine	G5		S	Dry Openings	S1S2
Rhea	Vascular Plant	Monotropsis odorata	Sweet Pinesap	G3		Т	Piney Woods	S2
Rhea	Vascular Plant	Polygala nana	Dwarf Milkwort	G5		Е	Wet Acidic Barrens	S1
Rhea	Vascular Plant	Phemeranthus mengesii	Menge's Fame- flower	G3		Т	Dry Rock Ledges	S2
Rhea	Vascular Plant	Phemeranthus teretifolius	Roundleaf Fameflower	G4		Т	Dry Sandy Rock Outcrops	S2
Rhea	Vascular Plant	Schisandra glabra	Red Starvine	G3		T	Rich Mesic Woods, Bluffs	S2
Rhea	Vascular Plant	Aureolaria patula	Spreading False- foxglove	G3		S	Oak Woods And Edges	S3
Rhea	Vascular Plant	Cypripedium acaule	Pink Lady's-slipper	G5		S-CE	Piney Woods	S4
Rhea	Other (Ecological)	Heron rookery	Heron Rookery	GNR		Rare, Not State Listed	No Data	SNR
Rhea	Vertebrate Animal	Erimonax monachus	Spotfin Chub	G2	LT,XN, PXN	Т	Clear upland rivers with swift currents & boulder substrates; portions of the Tennessee River watershed.	S2
