Emergency Plan Summary

This summary page is your family's personal Emergency Plan. Fill out this page carefully with your information. Discuss this booklet with your family and keep it in a safe, easy-to-find place for future reference. **Remember:**

- If you hear emergency sirens sound continuously for 4 minutes, turn to your Emergency Alert System (EAS) radio or TV station for further instructions.
- EAS broadcasts may instruct you to stay indoors with windows and doors shut, a protective action called "sheltering-in-place."
- Or, you may be instructed, depending on where you live, to evacuate. Do not evacuate unless your area is specifically instructed to do so.
- You may be instructed by safety officials on EAS broadcasts to swallow a KI-potassium iodide pill. Know where you have stored your supply, and take it with you if you are evacuated.

Other Information

If an emergency takes place, your family members might not be at home. In case this happens, it may be a good idea to agree on a place outside the EPZ where everyone would meet, such as at a Reception Center or a friend's or relative's house outside the EPZ. You should also agree on a "check-in" phone number for the family—a friend or relative who lives outside the area code you're in. Everyone would call this person to check in with him or her if an emergency occurred.
