General Comment

As a grandmother, I am appalled by the lack of honest action, human decency and civic concern shown by our President & Congress in their role as protectors of the safety, security and basic well-being of We the People. Collectively, and thru the NRC, you have all failed us. You have been entrusted with the responsibility to regulate a global threat--nuclear power and the unimaginable build up of radioactive waste it produces daily. Instead, you have played Russian-Roulette with not only the lives of those who gave you their trust and their vote....but the millions of those yet unborn. Shame on you all. And why have you done this? All in the cause of protecting the profits of this insane and corrupt collusion of corporate greed and governmental negligence...a collusion that binds our future and the future of the planet to a complex web of policies linking military, industrial, and energy greed and avarice. We The People want Congress and the President to act on OUR behalf, de-license all nuclear power plants, decommission and begin a clean up of all sites, build needed casks for temporary storage, FULLY FUND CLEAN GREEN ENERGY PROJECTS IMMEDIATELY and STOP THE NUCLEAR MADNESS---NOW AND FOREVER!
