(77FR65417, dated October 26, 2012, Docket ID NRC-2012-0261)

This letter is being submitted in response to the U.S. Nuclear Regulatory Commission (NRC) request for comments concerning the draft Interim Staff Guidance (ISG) JLD-ISG-2012-06, "Guidance for Performing a Tsunami, Surge, or Seiche Hazard Assessment," published in the Federal Register (i.e., 77FR65417, dated October 26, 2012).

The NRC staff developed this ISG to provide guidance and clarification to assist nuclear power reactor applicants and licensees with performing a flooding hazard reanalysis in response to Enclosure 2 of the March 12, 2012, 10 CFR 50.54(f) information request.

Exelon Generation Company, LLC (Exelon) appreciates the opportunity to comment on this draft ISG. Exelon fully supports and endorses the comments submitted by the Nuclear Energy Institute (NEI) on behalf of the industry in its letter dated November 26, 2012, regarding this subject.
