Dear Mr. Ong:

The Office of Federal and State Materials and Environmental Management Programs has received your letter dated December 5, 2012, transmitting the New Hampshire's proposed revisions incorporating the Part 35 provisions of RATS IDs: 1997-3, 2002-2, 2005-2, 2006-1, 2007-1, and 2009-1. Although you did not request the review of the Part 35 provisions associated with RATS ID 2007-3, based on my acceptance review the submitted proposed regulations addresses these provisions and also will be included in our review.

Please note, although you included a request to review RATS IDs: 1995-1, 1995-7 and 1998-5, these provisions had been previously reviewed by NRC as final regulations with no comments. We do not need to re-review these provisions. The review has been assigned to Donna Janda and it is our goal to complete the review within 60 days.

If you have any further comments or questions, please contact me. Thank you for your attention.
