

December 18, 2012

Mr. Gerard F. Couture, Manager
Westinghouse Electric Company, LLC
Nuclear Fuel Services, Inc.
5801 Bluff Road
Hopkins, SC 29061-9121

SUBJECT: APPROVAL OF REVISION 16 OF THE SITE EMERGENCY PLAN
(TAC NO. L33238)

Dear Mr. Couture:

In a letter (LTR-SR-12-8) dated September 14, 2012, Westinghouse Electric Company, LLC, submitted Revision 16 of the Site Emergency Plan for review by the Nuclear Regulatory Commission (NRC) in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Part 70.32(e). The revision accounted for a Uranium Hexafluoride Container Storage Pad annex within the Controlled Access Area boundary.

The NRC staff finds that Revision 16 meets all applicable regulations; the annex does not decrease the effectiveness of the Site Emergency Plan, and hence, did not require prior approval by the NRC staff. The NRC staff has no further questions at this time. Safety Condition S-2 will be modified to include the revision in the next amendment of Special Nuclear Materials license SNM-1107.

This letter both concludes the action on the review of Revision 16 of the Site Emergency Plan and closes the assigned Technical Assignment Control Number L33238.

In accordance with 10 CFR 2.390 of the NRC's "Rule of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Christopher Ryder, Licensing Project Manager
Fuel Manufacturing Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No. 70-1151
License No. SNM-1107
