NUCLEAR REGULATORY COMMISSION
REGION I
2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PENNSYLVANIA 19406-2713

December 13, 2012

Docket No. 03038458
Control No. 575971

License No. 06-31445-01

Janos Kovacs
Vice President-Administrative & Manufacturing Operations
Light Sources, Inc.
37 Robinson Boulevard
Orange, CT 06477

SUBJECT: LIGHT SOURCES, INC., APPLICATION FOR LICENSING ACTION, CONTROL
NO. 575971

Dear Mr. Kovacs:

This refers to your license amendment request. Enclosed with this letter is the amended license.

This amendment grants you authorization to dispose of up to 200 lamps each year, not to exceed 0.12 microcuries of krypton 85 each, to a recycling facility that handles hazardous waste, including mercury. The recycling facility must be licensed by the U.S. Nuclear Regulatory Commission or an Agreement State or have received an exemption from licensing requirements under 10 CFR 30.11. The attached letter dated March 13, 2012, outlines the 10 CFR 20.2002 process. Currently, there are no facilities which have received this exemption.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

The Notice of Availability of Environmental Assessment and Finding of No Significant Impact for this action was published on November 6, 2012, in the Federal Register, Volume 77, Number 215. A copy of the Federal Register Notice is enclosed for your information.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We

J. Kovacs

2

strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

Original signed by Judith A. Joustra

Judith A. Joustra, Chief
Commercial and R&D Branch
Division of Nuclear Materials Safety
