December 13, 2012

Docket No. 03036176  
Control No. 579358

License No. 07-30790-01

Frank DiGregorio  
President and CEO  
Molecular Imaging Services, Inc.  
10 Whitaker Court  
Bear, DE 19701

SUBJECT: MOLECULAR IMAGING SERVICES, INC., LICENSE AMENDMENT, CONTROL NO. 579358

Dear Mr. DiGregorio:

This letter refers to your license amendment request dated October 24, 2012, to add the former facility of David S. Grubbs, M.D., License No. 07-31076-01, as an additional authorized location of use to your NRC license. Enclosed with this letter is the amended license.

Please note that you are required, pursuant to 10 CFR 35.14 (b)(5), to notify the NRC no later than 30 days after you have added to or changed areas where radioactive materials permitted by 35.100 and 25.200 are used. Therefore, please submit your final facility diagram and shielding specifications to the NRC for review no later than 30 days after completion.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to

F. DiGregorio

2

develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

***Original signed by Lester Tripp***
