Administrative Conditions

1. Resolution of Disagreements

Should disagreements arise on the interpretation of the provisions of this agreement or amendments and/or revisions thereto, that cannot be resolved at the operating level, the area(s) of disagreement shall be stated in writing by each party and presented to the other party for consideration. If agreement or interpretation is not reached within 30 days, the parties shall forward the written presentation of the disagreement to respective higher officials for appropriate resolution.

If a dispute related to funding remains unresolved for more than 30 calendar days after the parties have engaged in an escalation of the dispute, disputes will be resolved in accordance with instructions provided in the Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, Appendix 10, available at <http://www.fms.treas.gov/tfm/index.html>.

2. Cost Collection Upon Cancellation

If the IA recipient cancels the agreement, the Environmental Protection Agency is authorized to collect costs incurred prior to the cancellation of the agreement, plus termination costs, up to the total payment amount provided for under the agreement.

Memorandum of Agreement
Between
U.S. Environmental Protection Agency (EPA)
Managing Partner
eRulemaking Program
and
U.S. Nuclear Regulatory Commission (NRC)

I. Purpose and Statement of Work

This Memorandum of Agreement (MOA) is between the Nuclear Regulatory Commission (the "Partner Agency") and the U.S. Environmental Protection Agency (the "Managing Partner") to support the maintenance and operation of the government-wide electronic docket management system known as the Federal Docket Management System (FDMS), (publicly accessible at www.regulations.gov). The eRulemaking Program is one of the Presidential E-Government programs and lines of business. It fulfills the requirements under the E-Government Act of 2002 (Section 206), the Clinger-Cohen Act, and the Government Paperwork Elimination Act, as well as furthering the effectiveness and efficiency of government. This MOA establishes Managing Partner and Partner Agency responsibilities and funding requirements in support of the Program Management Office (PMO) operations related to the eRulemaking Program and will be incorporated by reference into EPA's funding document, the interagency agreement (IA).

The NRC will transfer funds to EPA that reflect NRC's service fee for the implementation, use, and the operation and management of FDMS. Access to and use of FDMS will be granted to NRC, along with all other Federal agencies and the general public.

II. Authorities

This agreement is authorized in accordance with the authority provided under:

The Economy Act (31 U.S.C. §1535, 1536)
The Clinger-Cohen Act (40 U.S.C. §11318)
The E-Government Act of 2002

III. Background

The eRulemaking Program is a collaborative, inter-agency effort, whose purpose is to establish a common, automated, and integrated repository for managing Federal rulemakings and non-rulemaking actions that follow a structured notice and comment process. The project consolidates the dockets of various departments and agencies and centrally manages them through a web-based environment offering services such as one-stop access, search capabilities, public comment submission, email notification, bookmarking, and electronic records management meeting the DOD 5015.2 standard recognized by the National Archives and Records Administration.

The E-Gov Programs strive to provide an order of magnitude of improvement in services to the constituents they serve. A Managing Partner was assigned to each program or lines of business.

The EPA is the designated PMO for the eRulemaking Program. The eRulemaking Program Office was established by EPA to implement this effort. The NRC is a partner agency under this agreement.

IV. Vision and Goals for the eRulemaking Program

The overall vision and goals for the eRulemaking Program are:

Vision

Citizens can easily access and participate in a high quality, efficient and open rulemaking process across all Federal agencies.

Goals

Through the use of information technology, the eRulemaking Program seeks to:

- Expand public understanding of the rulemaking process;
- Improve the quality of Federal rulemaking decisions and streamline and improve the efficiency of the rulemaking process; and
- Increase the amount, breadth, and ease of citizen access and participation in rulemaking.

The eRulemaking Program will achieve these goals by implementing a range of performance measures related to technology, processes and activities, customer results, and mission and business results:

Technology – The PMO will ensure FDMS/Regulations.gov is available 99.9% of the time to the public and the Federal agencies. Availability = (Hours FDMS accessible to public and Federal entities)/(total hours in measurement period less scheduled maintenance + plus Network downtime)

Processes and Activities - The PMO will deploy two FDMS version releases per year and implement technical improvements to Regulations.gov.

Customer Results – The PMO will complete the implementation of Federal entities that request and pay for migration to FDMS.

Customer Results – The PMO will maintain the existing FDMS security plan and certification.

Mission and Business Results - 90% of total Federal rules promulgated by Federal entities are implemented in FDMS and have associated dockets available and posted for public access via www.regulations.gov.

V. Roles and Responsibilities

This MOA addresses participation in and the funding of the eRulemaking Program as mandated by the 2002 eGovernment Act, Section 206 according to OMB directive M-03-18

***Implementation Guidance for the E-Government Act of 2002. The FDMS will be the central electronic docket management system for all Federal agencies.**

The Managing Partner will:

1. Staff an eRulemaking Program Management Office in order to manage the Program, convene and participate on an inter-agency advisory board comprised of Federal representatives of partner agencies, and establish work groups to address projects and tasks essential to the successful execution of the Program.
2. Conduct meetings for the purpose of collaborating with other Federal agencies to enhance the Program.
3. Facilitate an effort under the Advisory Board to convene a budget workgroup to develop an annual budget for the eRulemaking Program, metrics for a fee for service model, and a fee for service model.
4. Manage development, migration, and operation of the FDMS/Regulations.gov. Costs borne by EPA and reimbursed by NRC will reflect NRC's fee for service in 2013 to support, operate, and maintain the eRulemaking Program, FDMS, and www.regulations.gov.
5. Coordinate and ensure participating and partner members have an opportunity to review project management documentation, including the draft annual OMB Exhibit 300 (also known as the Business Case or CPIC).
6. Execute any interagency agreements (IA) to affect NRC's transfer of funds and coordinate the IA prior to start of work, monitor progress, establish performance measures, and ensure reporting requirements are met.
7. Evaluate project progress, interoperability policies, practices and procedure documents and testing reports, as well as provide programmatic and technical assistance as required, and attend all meetings, reviews and conferences.
8. Convene meetings of an interagency Executive Committee on an as-needed basis and annually, at a minimum.

Each Participating or Partner Agency signing this MOA will:

1. Transfer the funding amount identified in Section IX of this MOA. If the partner agency is under a permanent continuing resolution (PCR), it will be expected to pay in full within 45 days of the signed PCR. If the partner agency is under a temporary CR, it shall contribute the full amount of its 2013 fee, or an amount proportionate to the period covered by the CR in order to provide necessary funding to keep the initiative operational until the appropriations bill is signed.

2. Identify a manager or senior executive to coordinate activities and serve as the main point of contact to address any issues that may arise. The manager or senior executive and/or his/her designee will also participate in the governance structure of the eRulemaking program.
3. Identify a qualified staff person(s) to work with PMO staff on the agency's use of FDMS/Regulations.gov.
4. In using the FDMS, the agency will be required to do the following:
 - a. Make its public regulatory dockets electronically accessible and searchable using www.regulations.gov. This includes posting *Federal Register* proposed rules and rule documents; supporting scientific, legal, economic and technical analyses; and public comments, as well as other *Federal Register* documents the agency chooses to post;
 - b. Accept electronic submissions/comments to the online dockets;
 - c. Include in the preamble to any regulatory action requesting public comment specific reference directing the public to www.regulations.gov;
 - d. Include in an appropriate place on its agency website home page a link to www.regulations.gov; and
 - e. Use www.regulations.gov to process public comments for economically significant guidance documents according to OMB Directive M-07-07 "Issuance of OMB's Final Bulletin for Agency Good Guidance Practices".
5. Include an acknowledgement of its participation in the eRulemaking Program in relevant budget program documents generated by the agency.
6. Actively assist in developing and using the common government eRulemaking components as they become available and meet established government-wide criteria, as may be appropriate.

VI. Duration of Agreement

This MOA is valid through September 30, 2013.

VII. Dispute Resolution Mechanism

In the event the participating or partner agency determines that its ability to fulfill its financial obligations under this MOA/IA as identified in Section IX of this MOA is at risk, it shall promptly inform the eRulemaking Program Manager in writing. If the Program Manager becomes aware of like circumstances, the Program Manager shall apprise participating and partner agencies in writing.

In the event of any disagreement arising under this agreement, the parties shall, in good faith, attempt to negotiate a resolution to the disagreement. If the parties cannot negotiate a resolution, the OMB E-Government portfolio manager is authorized to resolve the dispute.

VIII. Points of Contact

NRC and EPA will assign the following senior manager as the key point of contact (POC) with the eRulemaking Program. The senior manager is an official representative and is authorized to act on the Agency's behalf.

IX. Transfer of Funds

Each partner agency is responsible for providing funding and/or in-kind contributions. The government-wide total estimated cost for development and support in 2013 is \$7.6 million. Funding and resources from participating agencies shall be made available within 45 days of the enactment of an Agency's fiscal year 2013 appropriations bill.

Nothing in this agreement is intended to be a direct transfer of funds from NRC to EPA. All transfers are to be effected through the Interagency Payment and Collection System (IPAC).

The NRC will transfer funds to EPA in accordance with the following table:

**DETERMINATION AND FINDINGS
ON
INTERAGENCY AGREEMENT ORDER UNDER THE
ACT OF 1988 (15 USC 3704B)**

PROJECT TITLE: Interagency Agreement with the Environmental Protection Agency (EPA) for the support of the Federal Docket Management System (FDMS).

PURPOSE: The purpose of this agreement between the Nuclear Regulatory Commission (NRC) and the EPA is to enter into a Memorandum of Agreement in which the EPA shall provide the NRC access to the Federal Docket Management System, which consolidates the dockets of various departments and agencies and centrally manages them through a web-based environment.

AUTHORITY: Federal Acquisition Regulation Part 17.5 – Act of 1988 (15 USC 3704b)

DETERMINATION

1. I reviewed the requirement to provide funding support to EPA as an Interagency Agreement (IA) under the Act of 1988 (15 USC 3704b) to continue to provide the NRC access to the Federal Docket Management System.
2. The use of an interagency agreement is in the best interest of the Government.

FINDINGS

1. The proposed Interagency Agreement Order is authorized under the authority of Act of 1988 (15 USC 3704b). The total cost of the agreement is estimated to be \$77,826.00.
2. The EPA successfully completed activities similar in nature to the activities to be provided in this Interagency Agreement Order. The activities were completed on time and within the projected budget.
3. The services cannot be obtained as conveniently or economically by entering into a direct contract or assistance instrument with a private source.
4. EPA has unique expertise and capabilities to enter into the assistance agreement not currently available within the NRC.
5. The supplies or services are clearly within the scope of activities of the NRC and is authorized under CFDA77.009.
6. There are no fiscal obligations required for this action. A fiscal obligation will only arise when a bona fide need, provides the necessary requirements and funding to issue obligations via individual task order release.
7. All approvals and authorizations required by NRC policies for acquiring the supplies or services have been obtained.

Given the findings outlined above, I hereby determine that, under the authority of Act of 1988 (15 USC 3704b), the servicing agency EPA is authorized by law or regulation to purchase such supplies or services on behalf of other agencies. It is in the best interest of the Government to enter into an Interagency Agreement with the EPA to provide NRC access to the Federal Docket Management System.
