**Attachments:** RSO Certificate.pdf

Hello Bryan,  
Here is the training certificate from my RSO course. Any questions please let me know.

Thanks, Mike

**Subject:** RE: Boeing St. Louis-Mail Control Number 579232

Was Mike Kohls able to complete the RSO course last week? If so, please provide a PDF of the training certificate when you get a chance and I will complete the amendment naming him RSO.

Thanks.  
Bryan

Bryan-Your approach to the documents sounds fine. Regarding Mike's training, a slot opened in the Nov 26-30 "Radiation Safety Officer Training Class" sponsored by Nevada Technical Associates in Columbus Ohio so Mike will attend that class. Will send you proof of completion after the class. Thanks-Mike

Hey Mike,

Ok, thanks for the extra info on Mr. Dennison's background. That will suffice. Just to clarify, I will take your letter dated 11/01/12 (sent by email on 11/1), and attach 1) the waste records sent in your email on 11/7, and 2) the training record sent in your email today 11/19, and use that document for this amendment.

Please confirm that that is OK.

Also, any update on Mike Kohl's impending training? Does he have a class confirmed? Will it be completed before January 1 so we can name him RSO?

Bryan

**Subject:** RE: Boeing St. Louis-Mail Control Number 579232

Hey Mike,

Thanks for the comments and info. The disposal info is fine, and hopefully Mike K can find another course soon.

Re: Eric Dennison's training info -- how recent is the work experience (field experience, calibration work, working directly with radiation/RAM)?? We typically look at the "recentness of training" which is a 7-year timeframe. His degree and RSO course were more than 7 years ago, but if his work experience is more recent (<7 yrs), then he should be good.

Hey Mike,

The letter looks good, but a couple of things:

- 1) I need a record of the disposal noted for Item 6.A. (see 1<sup>st</sup> attachment)
- 2) I'll need a copy of the training certificate for Mike Kohls after he completes training. (the planned training course (11/26-30) is full and Mike is looking for another date that works; plan to complete before the end of 2012 and will send you confirmation/certificate when received)
- 3) Eric Dennison is not currently listed as an authorized user so I'd need some description or documentation of his training and experience with rad material (see 2<sup>nd</sup> attachment)
- 4) Confirm that we are removing John Skorat. (yes-he is no longer with the Company)

Let me know if you have questions.

Bryan
