Subject: Emergency Plan Revisions 24 & 25

Dear Sir or Madam:

Babcock & Wilcox Nuclear Operations Group - Lynchburg (B&W NOG-L) revised its Emergency Plan. This revision was made in accordance with 10 CFR 70-32(i), as a change that does not reduce the effectiveness of the plan.

Enclosure 1 contains a list of the changes to Revision 24 and the justification for making them. Enclosure 2 contains controlled copy #28 of the Emergency Plan Revision 24 (note: for Region II, Enclosure 2 contains controlled copy #29 of the Emergency Plan Revision 24). Revision 24 is being included for information only and as such, should be either destroyed or returned to B&W NOG-L. Enclosure 3 contains a list of the changes made to Revision 25 and the justification for making them. Enclosure 4 contains controlled copy #28 of the Emergency Plan Revision 25 (note: for Region II, Enclosure 4 contains controlled copy #29 of the Emergency Plan Revision 25). This plan will replace Revision 23 except for Appendix D - US Geological Survey Map from documents dated 3/05/2002.

B&W NOG-L requests that your copy of Revision 23 be destroyed or returned to B&W NOG-L, however keep Appendix D- US Geological Survey Map from documents dated 3/05/2005. B&W NOG-L also requests that both the NRC Washington and Region II office acknowledge, via letter or email, receipt of this controlled copy of Revision 24 and 25. Pre-addressed envelopes have been included for your convenience.

All enclosures are designated as Official Use Only because they contain data that could potentially damage governmental, commercial, or private interests if disseminated to persons who do not need the information to perform their jobs or other DOE - authorized activities, and therefore should be withheld from public disclosure. DOE G 471.3-1 was used for guidance.

Should additional information be needed for this matter, please contact me at (434) 522-6405 or via email at caengland@babcock.com.

Sincerely,

Charles A. England for CAE
