Gentlemen:

This refers to the special inspection conducted by the State of Washington, Department of Social and Health Services, on May 17, 1983, and to the telephone conversation between Mr. Mark C. Roberts, Corporate Radiation Safety Officer, and Mr. D. R. Gibbons of this office on July 7, 1983, regarding the shipment of radioactive waste shipped from your facility on May 13, 1983, and received at the U. S. Ecology, Inc., Richland, Washington disposal site on May 17, 1983, and to a review of documents pertaining to that shipment.

Based on the results of this review, certain of your activities appeared to be in noncompliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The violation for which you have been cited has already been the subject of enforcement action by the State of Washington. On May 18, 1983, the State of Washington suspended your burial permit.

In view of the circumstances surrounding this matter, we have exercised our discretion under the NRC Enforcement Policy, 47 FR 9987 (March 9, 1982), and have chosen to issue at this time the enclosed Notice of Violation. After reviewing your response to this Notice of Violation and your proposed corrective actions, the NRC will determine whether further NRC enforcement action is necessary in order to ensure compliance with NRC regulatory requirements.

Sincerely yours,

E. M. Allan.
