Dear Ms Bladey,

In regard to the Supplemental Environmental Impact Statement for the Dewey-Burdock project in Custer and Fall River Counties in South Dakota, please consider additional time to comment on this lengthy report. Less than two months has been allowed for people to read and evaluate the document. Because this is the holiday season, please extend by 30 days the time for thoughtfully reading this document.

Thank you for considering this request,

Sincerely,

T.M. Furois
