RE: Docket ID NRC-2012-0277

Dear Ms. Bladey:

I am requesting additional time to comment on the Supplemental Environmental Impact Statement for the Dewey-Burdock project in Custer and Fall River Counties, South Dakota.

This document was issued right before Thanksgiving, and comments are due just after the New Year. It is unreasonable to expect people to read a technical document of this length and prepare comments with such short notice and turnaround time. As you must know, many people are traveling and not even in town at this time.

I would like to request a thirty day or more extension so that I and others can prepare insightful and substantive comments.

Thank you very much in advance, for your consideration of this request.

Sincerely,

Rebecca R. Leas, Ph.D.
