General Comment

I am not in favor of any type of Uranium Mining in Colorado in any way. This will ultimately ruin our aquifers and all of our water in Northern Colorado. There is no safe way to do this mining as it has been proved over and over. We want to protect our water and our land as it is so crucial for our resources and environment. I am totally against all Uranium mining in Colorado. I want to save our homes not Destroy them!! This statement is also true for South Dakota, they need their environment protected also.
