Penny-

Elise (not in today) had also reviewed expenditures for this contract and suggested reducing FY10 funding by \$75K. ORNL is amenable with that reduction. I would therefore suggest that we provide only \$125,000 of the \$200,000 originally planned for this month. Agree?

Good Afternoon,

Funding plans for the subject project include providing an additional \$200,000 to Oak Ridge this month. Since spending has been consistently lower than planned, is this entire amount needed now? The latest status report notes that at the end of last month over \$100,000 or approx. 60% remained unexpended.

Thanks
