Name of Licensee: Berger, Lehman Associates, PC
Name of Participant(s): Neal Weitman & Sattar Lodhi
Telephone No. 212 462 8500
Subject: Transfer of License and the Required NRC Consent
 (NOTE: This will be used as the Documents Title in ADAMS)

The licensee requested an amendment to the above license (ML12356A309). It appeared from the letter that the above named licensee was acquired by another entity and wanted to change the name of licensed entity. The letter also stated that there was no change in its radiation safety procedures or personnel as a result of this acquisition.

I called Neal Weitman to inform him of the requirements in 10 CFR 30.34(b) and that they were required to obtain NRC's written consent prior to transfer of the license. He was not aware of the requirement and again stated that there have been no changes in their operations other than the name change on the license.

I requested him to provide assurance from the new owners that they will abide by all conditions and commitments of the license. He will respond as soon as he can.

Action Required: Document and wait for the applicant's response
