MEMORANDUM TO: Timothy J. Frye, Chief  
Construction Assessment and Enforcement Branch  
Division of Construction Inspection  
and Operational Programs  
Office of New Reactors

FROM: Jose Jimenez, Reactor Operations Engineer //RA/  
Construction Assessment and Enforcement Branch  
Division of Construction Inspection  
and Operational Programs  
Office of New Reactors

SUBJECT: SUMMARY OF THE JANUARY 8, 2013, UNITED STATES  
NUCLEAR REGULATORY COMMISSION CONSTRUCTION  
REACTOR OVERSIGHT PROCESS CATEGORY 3 PUBLIC  
MEETING WITH THE INDUSTRY AND THE GENERAL  
PUBLIC

On January 8, 2013, the U.S. Nuclear Regulatory Commission (NRC) Construction Assessment and Enforcement branch met with members of the public and the industry at the McCrorey-Liston elementary school, 1978 State Highway 215, South Blair, SC. The meeting notice was documented in the Agencywide Documents Access and Management System (ADAMS) under accession number ML12346A170. The purpose of the meeting was to continue our discussions of the progress and lessons learned from the construction Reactor Oversight Process (cROP) pilot program. The NRC cROP pilot program is currently being implemented at Vogtle Unit 3 &4, and at Summer Units 3 & 4.

The purpose of the meeting was to present an overview of the cROP pilot program, share some of the accomplished goals and lessons learned, and extend the opportunity for the public to ask questions or provide feedback on the cROP pilot program (ADAMS ML12366A211). The NRC informed the public that general feedback received was that the cROP is working as expected. The SDP has been a good tool to assess the issues identified to date by the NRC. The program has allowed for licensees to understand the NRC's assessment of identified issues. After the presentation, participants engaged in a questions and answers session with the NRC that focused on concerns of members of the local community as well as concerns of interested organizations in attendance.

A list of attendees is attached. Public Meeting Feedback forms were distributed and submitted according to standard protocols. Please direct any inquiries to Jose Jimenez at 301-415-5303, or via e-mail to [Jose.Jimenez@nrc.gov](mailto:Jose.Jimenez@nrc.gov).
