RE: Docket ID NRC-2012-0277

Dear Ms. Bladey:

We respectfully request additional time to comment on the Supplemental Environmental Impact Statement for the Dewey-Burdock project in Custer and Fall River Counties, South Dakota.

This document was issued right before Thanksgiving, and comments are due just after the New Year. It is unreasonable to expect people to read a technical document that is hundreds of pages long and prepare comments in such a short timeframe, especially over the holiday season.

We request an extension of 30 days, so that we can prepare thoughtful, complete comments.

Please also consider that it is imperative that those Tribal Nations list under the 1868 Fort Laramie Treaty are included in the consultation as the required Government to Government Consultation protocol insures.

Thank you for your consideration of this request.

Sincerely,

Carla R. Marshall
