General Comment

Hello,

My name is Christine Muse. I live in the general area of the Southern Black Hills where the proposed uranium mining is to take place. I have seen first hand the devastating affects left from prior uranium mining in this area. I am extremely opposed to any more uranium mining taking place. This mining affects our ground water as well as many other environmental impacts that can adversely affect our health. Please do not allow for this to take place as proposed. The studies on the impact this will have to the area are very clear and it is so important to make sure this doesn't happen. Thank You.

Christine Muse
