January 17, 2013

Docket No. 03037849  
Control No. 579489

License No. 06-31339-01

Jeffrey A. Scala  
Vice President and Radiation Safety Officer  
Tectonic Engineering and Surveying Consultants P.C.  
1344 Silas Deane Highway  
Rocky Hill, CT 06067

SUBJECT: TECTONIC ENGINEERING AND SURVEYING CONSULTANTS P.C., LICENSE  
AMENDMENT, CONTROL NO. 579489

Dear Mr. Scala:

This refers to your license amendment request application dated November 15, 2012. Enclosed with this letter is the amended license. The license is amended to include the storage location requested in your application. Also, the storage facilities in Orange, Milford, and Waterbury, Connecticut, previously authorized on your license, may be released for unrestricted use based on your letters dated December 11, 2012, and January 2, 2013.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

J. Scala
