PUBLIC SUBMISSION

As of: December 17, 2012
 Received: December 14, 2012
 Status: Pending_Post
 Tracking No. 1jw-82j0-qdeu
 Comments Due: January 02, 2013
 Submission Type: Web

Docket: NRC-2012-0246

Consideration on Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0001

Consideration of Environmental Impacts of Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Document: NRC-2012-0246-DRAFT-0387

Comment on FR Doc # 2012-26295

Submitter Information

Name: Vic Burton

General Comment

Issue no more NRC licenses enabling atomic reactors to generate high-level radioactive waste.

For wastes that already exist, require Hardened On-Site Storage.

The Federal Register Notice must be withdrawn, corrected, and re-issued. In the meantime, this proceeding must be suspended by NRC, and the allotted time for public comments must be re-started from the beginning.

The public comment deadline should be significantly extended.

In-person public comment meetings should be held in every nuclear power plant community, supplemented each time with the remote webinar/teleconference participation option for those unable to attend in person . At the bare minimum, in-person public comment meetings should be held in each region of the country.

Please stop rushing this environmental impact statement process.
