Dear Mr. Nicholson:

Oak Ridge Associated Universities (ORAU), operating under the Oak Ridge Institute for Science and Education (ORISE) contract, performed confirmatory radiological survey activities on portions of the ABB Combustion Engineering Site (ABB) in Windsor, Connecticut during the periods of October 24 through 27, 2011 and April 30 to May 3, 2012. These survey activities were requested and approved by the U.S. Nuclear Regulatory Commission (NRC). Enclosed is the final report that summarizes ORAU's survey procedures and provides the results of the ORAU radiological survey activities. The surveys included gamma surface scans, gamma direct measurements, and soil sampling. Comments on the draft report, which was submitted on November 14, 2012, have been incorporated into this final report.

If you have any questions, please direct them to me at the information listed below, Erika Bailey at 865.576.6659, or Tim Vitkus at 865.576.5073.

Sincerely,
