**Subject:** Response to Staff regarding use of CLIIP for TSCR-142 (Adoption of TSTF-522)

In our letter NG-12-0483, dated December 21, 2012, NextEra Energy Duane Arnold transmitted a license amendment request to adopt a generic Technical Specification Traveler, TSTF-522, under the NRC's Consolidated Line Item Improvement Process (CLIIP). In response to Staff inquiry, NextEra Energy has no objections with the Staff making a determination that our application does not qualify under the CLIIP for expedited review.

However, we would request that the Staff endeavor to act on our application in less than the normal one year metric for approving licensing actions. While we do not have a specific need-by date, approval within 8 months of our application would be greatly appreciated, as this TS change request is tied to a corrective action in our Corrective Action Program relating to performance issues with the Standby Gas Treatment System electric heaters.

Please don't hesitate to contact me if you have further questions on this matter.
