SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE

Frontier Cancer Centers and Blood Institute have informed the Nuclear Regulatory Commission (NRC) of its decision to terminate NRC radioactive materials license number 25-29392-01. In support of such request, Frontier Cancer Centers and Blood Institute have submitted NRC Form 314 dated January 17, 2013. The license termination request and letter dated November 30, 2012, stated that all radioactive material and licensed operations identified in NRC license 25-29392-01 will be transferred to St. Vincent Healthcare NRC license number 25-07553-01 on February 1, 2013. Based on the documentation submitted and a review of Frontier Cancer Centers and Blood Institute, and St. Vincent Healthcare docket files, the staff concluded that all licensable radioactive material have been transferred to St. Vincent Healthcare. No further remediation or action with respect to NRC regulated material is required.

Please find enclosed amendment number 05 to license number 25-29392-01 authorizing your license termination. An environmental assessment for this action is not required since this licensing action is categorically excluded under 10 CFR 51.22(c)(14)(iv).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, Senior Health Physicist
Nuclear Materials Safety Branch B
