

OUTLINE COMMENTS (initial)

1. Verified the number of applicants to determine if the number of scenarios was adequate. **(There are currently 9 applicants – 6 SROi, 3 RO). SATISFACTORY**
2. Noted that the random selection methodology for the JPMs was not described in the summary provided. **Methodology updated to include JPMs**
3. Questioned whether the RO Equipment Control Admin JPM, Containment Isolation Valve Test, was actually administrative in nature. **Verified at OV**
4. Noted that a few KA references for written exam questions were duplicated – discussed “Random and Systematic” and the desire for a broad range of coverage on the exam. **Reselected oversampled KAs**
