John,

Following on from yesterday – with RAI-6a being redrafted – do the plan to issue RAI-11a separate from RAI-6a?

As far as I know, any statements that may have been made in that meeting (I was not in attendance) don't affect these draft RAIs.

John,

At the meeting held on 11/28 I understand that the NRC did stated that they will not be issuing any more RAIs to licensees who have submitted RVI programs and inspection plans until they have further discussions with MRP. Does that moratorium apply to the two draft RAIs? Also Entergy will be discussing these draft RAIs with Westinghouse on Wednesday and after that I will know what the schedule would be for a response.

Draft RAIs 6a and 11a, followups to RAIs 6 and 11, are attached.

Please review these with your staff and indicate whether IPEC desires a conference call to clarify the RAIs.

Thanks!
