Subject: Supplemental Information on Petition for Rulemaking

Dear Motti Slodowitz:

I am responding to your letter dated September 18, 2012, that you have filed with the U.S. Nuclear Regulatory Commission (NRC). The NRC received your letter by USPS priority mail postmarked December 12, 2012.

In your letter you provide supporting information for the petition dated December 2, 2011, filed with the NRC by Sandra Blanco on your behalf. The petition and supporting information are currently under review to determine if they meet the NRC's requirements for docketing under Title 10 of the Code of Federal Regulations, Section 2.802, Petition for rulemaking. We will notify you once a decision has been reached in this matter. Any questions regarding this proceeding may be directed to me on our toll-free number, 1-800-368-5642.

Sincerely,

Cindy Bladey, Chief
