Dear Sir or Madam:

On March 12, 2012, the NRC staff issued Reference 1 to request information associated with Near-Term Task Force (NTTF) Recommendation 2.1 for Flooding. Item 2 of Enclosure 2 to Reference 1 requests an Integrated Assessment Report from plant sites whose reevaluated flooding hazard is not bounded by their current design basis. Further, Required Response 1 states: "Within 60 days of the date of the NRC's issuance of guidance on implementation details of the Integrated Assessment Report, including criteria for identifying vulnerabilities, submit an approach for developing an Integrated Assessment Report including criteria for identifying vulnerabilities."

The following is Entergy Operations, Inc. (Entergy) 60-day response to Required Response 1 for Waterford Steam Electric Station, Unit 3 (Waterford 3).

On November 30, 2012, the NRC issued the Reference 2 Interim Staff Guidance. Entergy commits to use the Reference 2 guidance as the approach for developing the NTTF 2.1 flooding Integrated Assessment Report for Waterford 3 if the reevaluated flooding hazard is not bounded by the current design basis flooding evaluation.

Entergy also commits to use the guidance provided in Reference 3 regarding the trigger conditions and scope of any required Integrated Assessment.

This letter contains two new regulatory commitments, which are identified in the attachment.

Should you have any questions regarding this submittal, please contact Chester Fugate, Licensing Manager, at (504) 739-6685.

I declare under penalty of perjury that the foregoing is true and correct. Executed on January 29, 2013.

Sincerely,

DJ/WH

LIST OF REGULATORY COMMITMENTS

List of Regulatory Commitments

The following table identifies those actions committed to by Entergy in this document. Any other statements in this submittal are provided for information purposes and are not considered to be regulatory commitments.

COMMITMENT	TYPE (Check One)		SCHEDULED COMPLETION DATE (If Required)
	ONE- TIME ACTION	CONTINUING COMPLIANCE	
Entergy commits to use Interim Staff Guidance JLD-ISG-2012-05, <i>Guidance for Performing the Integrated Assessment for External Flooding</i> , Revision 0 guidance as the approach for developing the NTTF 2.1 flooding Integrated Assessment Report for Waterford Steam Electric Station, Unit 3 (Waterford 3) if the reevaluated flooding hazard is not bounded by the current design basis flooding evaluation.	✓		March 12, 2017 (Upon submittal of the Integrated Assessment Report, if required, which is two years following submittal of the site's Hazard Reevaluation Report.)
Entergy commits to use the guidance provided in NRC Letter, D.L. Skeen (NRC) to J.E. Pollock (NEI), <i>Trigger Conditions for Performing an Integrated Assessment and Due Date for Response</i> , for Waterford Steam Electric Station, Unit 3 (Waterford 3) regarding the trigger conditions and scope of any required Integrated Assessment.	✓		March 12, 2017 (Upon submittal of the Integrated Assessment Report, if required, which is two years following submittal of the site's Hazard Reevaluation Report.)
