Website - The Roy Process for Neutralizing Nuclear Waste

<http://web.archive.org/web/20110430022218/http://members.cox.net/theroyprocess/>

There is a viable, cost effective alternative to the federal policy of burying nuclear waste. First, there must be a Congressional Bill passed to allow transmutation, or backwards engineering nuclear waste to a non-radioactive element. In addition to eliminating nuclear waste, the decay heat can turn the steam electric generators at each nuclear power plant to produce electricity.

NEW film edit - Please share widely.

No Time To Waste: E.I.S. - The Roy Process
for Neutralizing Nuclear Waste - About 18 min.
