KING OF PRUSSIA, PENNSYLVANIA 19406-2713

January 30, 2013

Docket No. 03038496  
Control No. 579764

License No. 08-31082-02

Lori A. Balter  
President  
The Robert B. Balter Company  
P. O. Box 20004  
Washington, DC 20041

SUBJECT: THE ROBERT B. BALTER COMPANY, LICENSE AMENDMENT, CONTROL  
NO. 579764

Dear Ms. Balter:

This refers to your license amendment request dated January 23, 2013. Enclosed with this letter is the amended license. Please note that the new address of storage of your licensed material is not within the NRC's jurisdiction therefore, we could not include it on your NRC license. You should contact the Commonwealth of Virginia to make the requested change in your radioactive materials license issued by the Commonwealth of Virginia.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

L. Balter
