2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PENNSYLVANIA 19406-2713

February 4, 2013

Docket No. 03033449
Control No. 579544

License No. 44-30124-01MD

Glen Palmer, R.Ph.
Vice President, Operations
PharmaLogic Ltd
9 Krupp Drive
Williston, VT 05495

SUBJECT: PHARMALOGIC LTD, LICENSE AMENDMENT, CONTROL NO. 579544

Dear Dr. Palmer:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Please note that Condition 10 of your license only authorizes the storage, and use of material for calibration/testing of equipment, at your facility at 1191 S. Brownell Road, Suite 30, Williston, Vermont. When you receive your pharmacy license, please submit a copy to our office and request full radiopharmacy authorization for the Brownell Road facility. In addition, please amend your license if you have significant changes in you management organization.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

G. Palmer
