Re: Amendment of License No. 21-16544-01

To Mr. Kevin G. Null

The U.S. Department of Commerce/NOAA/Great Lakes Environmental Research Laboratory is requesting that our License No. 21-16544-01 be amended to remove the category 1D licensed radioactive material from our license and that our license fee be reduced accordingly. This material has been properly disposed of and we no longer need a provision for its use on our license. In addition, we are requesting that our license be amended to remove the names of authorized users that will no longer be using radioactive material under this license. Two hard copies of this amendment request are enclosed.

Thank you for your assistance in this matter. If you have any questions, please call the RSO Kim Kulpanowski at (734) 741-2074.

Sincerely,

A handwritten signature in black ink that reads "Marie Colton".

Dr. Marie Colton, Director
Great Lakes Environmental
Research Laboratory

RECEIVED FEB 05 2013

Item 5: Radioactive Material

Please remove the following category 1D radioactive material from our license:

Element and Mass Number	Chemical and/or Physical Form	Maximum Amount Possessed at any one time
Plutonium-239	Sealed or Plated Source	0.0006 mCi

The plutonium-239 calibration source has been properly disposed of.

Item 7

Please delete the following names from the list of authorized users:

Brian J. Eadie

Peter F. Landrum

John Robbins, Ph.D.

They have retired and have no plans to work with radioactive material under our license.
