Phone: 213-237-4538

Desc: Under the Freedom of Information Act, I request a copy of:

UES-20120254, "San Onofre Nuclear Generating Station Unit 2 & 3 Replacement Steam Generators Root Cause Analysis Report for tube wear identified in the Unit 2 and Unit 3 Steam Generators of San Onofre Nuclear Generating Station," Revision 0 dated October 12, 2012.

If portions of the document are nondisclosable, I request that the report be released with redactions.

FeeCategory: NewsMedia

MediaType: Los Angeles Times

MediaType\_Newspaper: on

FeeCategory\_Description:

Expedite\_ImminentThreatText:

Expedite\_UrgencyToInform: on

Expedite\_UrgencyToInformText: Sen. Barbara Boxer and Congressman Ed Markey have made public claims about the actions of Southern California Edison and Mitsubishi Heavy Industries in relation to the San Onofre Nuclear Generating Station, which has been out of service for over a year due to steam generator tube degradation. In order for the public to have the proper context to evaluate those claims, it is important that the media and the public have the opportunity to view the report in its entirety.

Waiver\_Purpose: I am a member of the media and will use the information to disseminate information to the public.

Waiver\_ExtentToExtractAnalyze: I will quote relevant passages in a newspaper article, and will make a link to the record available to the public.

Waiver\_SpecificActivityQuals: The record will be used to evaluate public statements made by Sen. Boxer and Rep. Markey about Southern California Edison and Mitsubishi Heavy Industries' knowledge of design defects in replacement steam generators at SONGS. I have written extensively about the steam generator tube issues at SONGS over the past year and have read hundreds of pages of technical documents related to the issues, inspections and restart plan.

Waiver\_ImpactPublicUnderstanding: Sen. Boxer and Rep. Markey made public statements based on their reading of a report that is not available to the public. Making the report available to the media and the public would greatly enhance the ability of members of the public to evaluate those statements and understand the context.

Waiver\_NatureOfPublic: The L.A. Times' is the fourth-largest daily newspaper in the nation by circulation and reaches millions of readers in Southern California and elsewhere.

Waiver\_MeansOfDissemination: The information would be disseminated via article in print and online as well as by making a link to the source document available to readers.

Waiver\_FreeToPublicOrFee: Readers pay a small fee for the print edition of the paper, but may read about 10 articles for free online, meaning that many people would have access to this information for free.

Waiver\_PrivateCommericalInterest: None
