Bill:  
I'm requesting updated Letters of Intent for the above referenced projects. We are looking for updated information before an upcoming Commission briefing next week. Specifically, we would like to know your best estimate as to when you expect to submit these applications. These letters can be informal and sent via e-mail to me. Thanks.  
Ron

Rockville, MD. 20852-2738

**RE: Uranium One Americas Letter of Intent for future NRC Licensing Actions**

Dear Mr. Linton:

Uranium One has reviewed future NRC licensing actions and has the following estimates for future submittal to the NRC:

- Allemand Ross ISR Uranium Project License Amendment Application to SUA - 1341 (Willow Creek) – End of Q2, 2013.
- Irigaray Expansion License Amendment Application to SUA – 1341 (Willow Creek) – End of Q4, 2013.
- Antelope and JAB ISR Uranium Project License Application (revised application of July 2008 submittal) – End of Q1, 2015
- Ludeman ISR Project License Amendment Application NRC RAI responses – June 2013.
- Moore Ranch License SUA -1596, resumption of NRC review of License Amendment Application submitted May 2011. Uranium One is currently evaluating the near term plans for the Moore Ranch Project and may request the NRC to resume review of that License Amendment document. This evaluation should be completed by the end of April, 2013.

If you have any questions or need additional clarification please contact me at [jon.winter@uranium1.com](mailto:jon.winter@uranium1.com) or (307) 234-8235 ext. 331.

Sincerely,

Jon Winter  
Manager of Environmental & Regulatory Affairs, Wyoming
