MEMORANDUM TO: Timothy J. Frye, Chief
Construction Assessment & Enforcement Branch
Division of Construction Inspection
and Operational Programs
Office of New Reactors

FROM: Jose Jimenez, Reactor Operations Engineer */RA GLipscomb for/*
Construction Assessment & Enforcement Branch
Division of Construction Inspection
and Operational Programs
Office of New Reactors

SUBJECT: SUMMARY OF THE FEBRUARY 6, 2013, UNITED STATES
NUCLEAR REGULATORY COMMISSION CONSTRUCTION
REACTOR OVERSIGHT PROCESS CATEGORY 2 PUBLIC
MEETING WITH THE INDUSTRY AND THE GENERAL
PUBLIC

On February 6, 2013, the U.S. Nuclear Regulatory Commission (NRC) Construction Assessment and Enforcement branch met with members of the public and the industry at the NRC headquarters' office in Rockville, MD. The meeting notice was documented in the Agencywide Documents Access and Management System (ADAMS) under accession number ML13008A101. The purpose of the meeting was to evaluate the construction Reactor Oversight Process (cROP) pilot program against pre-determined success criteria.

The staff presented the NRC's evaluation of the construction reactor oversight process (cROP) pilot (ADAMS ML13038A156). The cROP pilot results were assessed against the success criteria discussed in the cROP pilot memo and guidance document (ADAMS ML112700583). The meeting was also used to present the next steps in the cROP assessment and enforcement program development. The NRC discussed the lessons learned, the results from the internal and external stakeholder's surveys, and explained the different inputs used to evaluate the cROP success criteria. It was concluded at the meeting that all success criteria for the cROP pilot were met. The cROP pilot results will be reported to the NRC Commission in the cROP self-assessment SECY Paper by end of April of 2013. The staff plans to revise guidance documents as necessary and fully implement the new programs by July 1, 2013.

Moving forward, the staff agreed to conduct periodic public meetings during which issues of mutual interest concerning the cROP will be discussed. The purpose of these meeting will be to discuss issues that arise as the program matures, and to communicate planned updated to program guidance documents. The meetings will be held on an as-needed basis.
