Subject: Filter Emissions in the Case of an Accident

Importance: High

Dear Sir/Madam,

I am writing to ask our Nuclear Regulatory Commissioners to vote to require filtering of releases in the case of a severe accident when the amount of radiation and threat to workers and the public is by far the greatest. Direct Torus Vent Filters are readily available. They have been tested through over three decades of use in Sweden and are in use today throughout Europe.

Thank you for your consideration,
Steven Wilkinson.
