Barbara, I have my staff looking into the public availability of the June 2012 Safety Culture Assessment Panel Report and we will get back to you within a couple of days on the results of our review.

In reference to your suggestion, I reviewed our cover letter standard in the Enforcement Manual, that is publically available at the following location, <http://www.nrc.gov/reading-rm/basic-ref/enf-man/app-b.html>. It appears that our standard cover letter does not contain an email address or phone number. However, feel free to call me or email me in the future. I can be reached at 404-997-4415 or via email at alan.blamey@nrc.gov.

Alan: One request and one suggestion:

Ref NFS IIR (ML13030A347 attached), Page 9, Special Topics 1. Follow-up of Confirmatory Order, Enforcement Action (EA)-10-076 (IP 92703). Inspection Scope and Observations makes reference to a June 2012 Safety Culture Assessment Panel Report (Panel Report).

We would like to see a copy of that report and names of the panel members. I have searched on ADAMS and on the NRC NFS-dedicated website, but have not been able to locate it. Can you tell me where I might find it, or can you provide a copy? Since the other two Independent Safety Assessments are listed on the NRC NFS-dedicated website, believe this one should be included also.

Suggestion: On inspection reports above your signature block "Should you have any questions concerning these inspections, please contact us" -- you might consider listing an email address and/or phone number.

Thank you,
Barbara O'Neal
