LINDY CASEBIER  
ACTING EXECUTIVE DIRECTOR AND  
STATE HISTORIC PRESERVATION OFFICER

February 4, 2013

Mr. Michael J. Case, Director  
Division of Engineering  
Office of Nuclear Regulatory Research  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

**Re: 106 Review for NRC Earthquake Reconnaissance along River Cut Banks**

Dear Mr. Case:

Thank you for your letter concerning the above referenced project. A review of our files indicates that the proposed project should not require an archaeological survey. We concur with your agency's determination of *No Adverse Effect to Historic Properties*. Therefore, we have no further comments and your responsibility to consult with the Kentucky State Historic Preservation Officer under the Section 106 review process for this project is fulfilled.

In the event that human remains are encountered during project activities, all work should be immediately stopped in the area and the area cordoned off, and in accordance with KRS 72.020 the county coroner and local law enforcement must be contacted immediately. Upon confirmation that the human remains are not of forensic interest, the unanticipated discovery must be reported to the Kentucky Heritage Council.

Should you have any questions, please contact Nick Laracuenta of my staff at (502) 564-7005 ext 151.

Sincerely,

Lindy Casebier,  
Acting Executive Director and  
State Historic Preservation Officer
